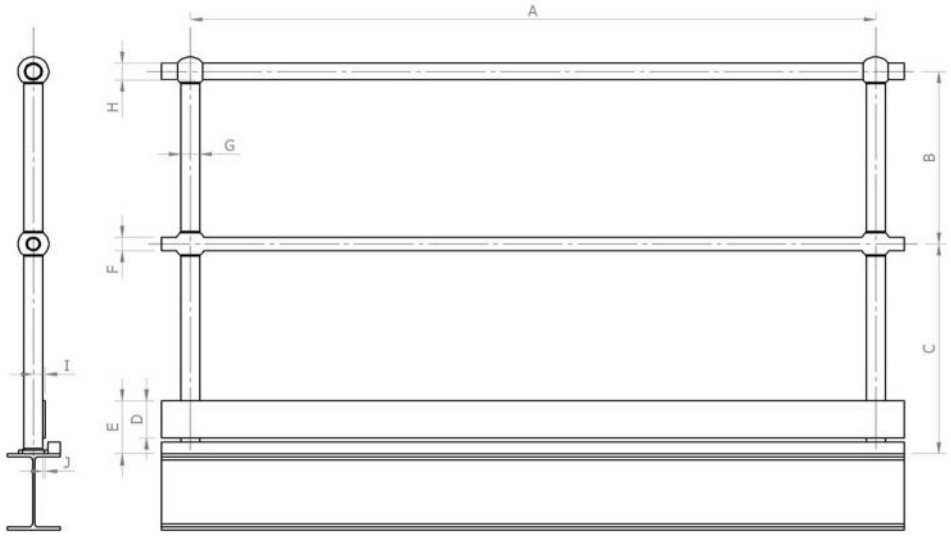
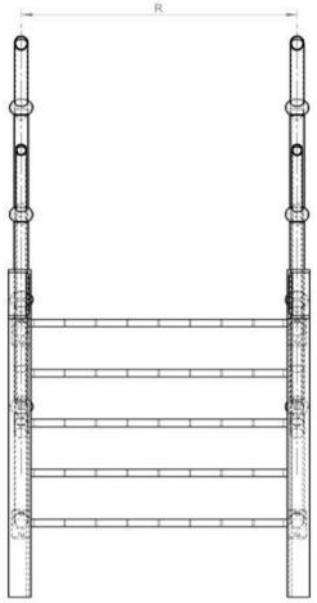
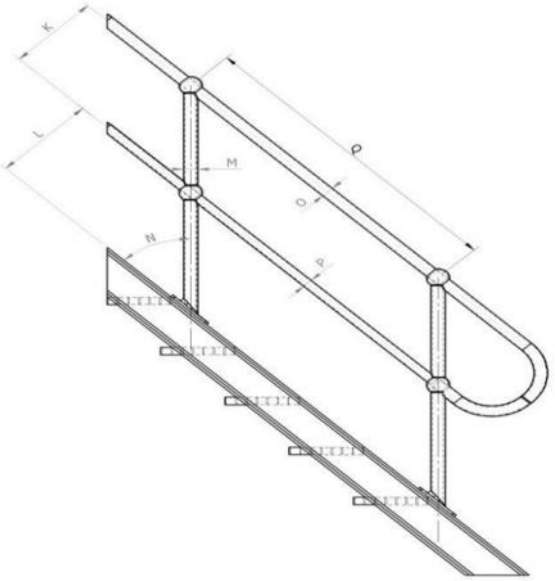
BLH SDB Handrail Measure Up Form






Item	Measurement	Description
Platform		
A		Centreline Distance Between Uprights (Stanchions).
B		Centreline Distance Between Top and Middle Rail
C		Centreline Distance Between Middle Rail and Structural section top surface
D		Kick Rail (Toe Board) Height
E		Top of Kick Rail (Toe Board) to Structural section top surface
F		Middle Rail Outside Diameter
G		Upright (Stanchion) Outside Diameter
H		Top Rail Outside Diameter
I		Upright (Stanchion) centreline to Kick Rail (Toe Board) front face distance
J		Kick Rail (Toe Board) thickness
Stairway		
K		Centreline Distance Between Top and Middle Rail
L		Centreline Distance Between Middle Rail and Structural section top surface
M		Upright (Stanchion) Outside Diameter
N		Stairway angle
O		Top Rail Outside Diameter
P		Middle Rail Outside Diameter
Q		Centreline Distance Between Uprights (Stanchions).
R		Stairway centreline width between Uprights (Stanchions).
Comments/Special Instructions		
Notes: All measurements are to be in mm All angles to be in Degrees
